Application for Subsidised Registration
To Attend the
2nd Workshop on Dynamics and Control
of Micro and Nanoscale Systems
23-24 February 2012

School of Electrical Engineering and Computer Science
The University of Newcastle
University Drive
Callaghan, NSW 2308

This registration subsidy is provided by the Australian Nanotechnology Network. It is open to Australian-based students and early career researchers.

With this subsidy the student registration fee is reduced to $50 and the early career researcher registration is reduced to $450.

Applicant Details:
Surname: ............................................. Given Name: ..............................................
Organisation: ...........................................................................................................
Postal Address: .......................................................................................................
............................................................................................................................
Telephone: ........................ Facsimile: ..............................
Email address: ........................................................................................................
Student ☐  Early Career Researcher ☐

Area of Research: ...................................................................................................
............................................................................................................................
Supervisor: ............................................ ANN member yes/no
Supervisor email address: .....................................................................................
Supervisor telephone: ..........................................................................................

Applicant Signature.................................. Supervisor Signature..........................

Please return by facsimile or email to:
